

What Can I Do In My Zone?

I2 Zone District

Intent:

The I2 district is intended to provide for industrial development that has some, any or all of the following: (a) potentially noxious impacts, (b) very heavy truck traffic for supplies, storage, or shipping, or (c) outdoor storage and operations. Examples include heavy manufacturing, storage, major freight terminals, waste and salvage, large dairy operations, distribution centers, processing, and other related uses. Because of the objectionable influences that may be created in this district, a buffer or additional setback strip and other site design requirements are necessary around this district to protect other zoning districts, except the I1 Light Industrial district.
